

SLC Mission Statement

The Summit Lacrosse Club (est. 1972) is dedicated to promoting the great game of Lacrosse for the boys and girls of Summit in grades 1-8. Our coaches, parents and players are encouraged to have fun while working to develop the player's character, skill and love for the game. **We strive to maintain a town program where every participant, regardless of initial skill level, has the opportunity to learn the game, develop individual and team-building and prepare to play at the high school level if they so choose.**

We value good sportsmanship (both on and off the field), respect for our opponents and referees, and encourage our players to reach their full potential. We hope our youth can develop into great lacrosse players and leave our club with fond memories of a program that inspired them to continue playing lacrosse.
